## DEMOGRAPHICS REPORT

2017

## Foreword

The following report details the changes in the demographics of the Adammic population over the course of the year 2017. Areas covered include population by subdivision, age group, gender, ethnicity and religion. This is the first such annual report issued by the Imperial Statistics Office, and it is intended to replace the spreadsheet published annually at the new year since 2013.

2017 saw significant growth in the Adammic population and this report aims to break down how this growth has altered the cultural composition of the Empire.

-His Imperial Majesty Emperor Adam I

*Explanatory note 1: "No data" signifies that the Imperial Government did not record the citizen's religion when registering them. This can be the case for people who have been citizens since before the current registration process was implemented, or for certain residents of Paternia, who were registered quickly due to time constraints. As a result, the true populations of particular religions within Adammia may be higher than the figures given here.*

*Explanatory note 2: It may be noted that the presence of a Hindu population seems unusual given Adammia's lack of ethnic Indians. The ISO believes that this is due to a variation of the so-called "Jedi census phenomenon" and that the individual who reported their religion as Hinduism is not in fact a serious Hindu.*
